FEAST^{SMT} **(Finite Element Analysis of Structures)** is the structural and heat transfer analysis software based on finite element method realized by Vikram Sarabhai Space Centre / Indian Space Research Organisation. It is supported by state-of-the-art pre/post processor - PreWin. Sub-structured and multi-threaded implementation of the solver ensures high performance by exploiting multi-core architecture of modern computing platforms.

PreWin is the Graphical User Interface (GUI) based pre & post Processor of FEAST^{SMT}. The software has Static, Free-vibration, Buckling, Transient, Frequency, Random
